

[LiveWell Greenville](#) champions healthy eating and active living through convening community partners to impact policy, systems, and environmental changes.

Coalition partner Mill Village Farms implemented an **environmental change** by bringing fresh produce to both food deserts and corporate work sites, increasing access to healthy foods

in neighborhoods and workplaces.

Mill Village Farms is one of more than 150 partners that LiveWell Greenville *convenes* to drive changes in **policies, systems and environments** that support healthy eating and active living.

We are all LiveWell Greenville - making the healthy choice the easy choice.

LiveWell Greenville and Mill Village Partnership Facts:

- Utilized the Food Environment study to identify food desert stops for the Mill Village Farms Mobile Market, creating an **environmental change** in the surrounding area and increasing access to healthy foods.
- Increased the number of mobile market stops in food deserts from 3 to 12, and at work sites from 2 to 8, during the three years of the Partners Improving Community Health (PICH) grant.

Mill Village Farms Partner Spotlight:

Mill Village Farms is committed to building up communities it serves by teaching skills to youth that translate into workforce development. Mill Village Farms creates a connection between people and where food originates, and has reframed the discussion on agricultural careers.
