

[LiveWell Greenville](#) partners are on a shared mission of making Greenville the healthiest community in our nation.

Furman University is one of over 150 partners LiveWell *convenes* to support *policies, systems and environments* for healthy eating and active living. This partnership builds better opportunities for students by training them in policies, systems and environments, promoting wellness and by growing a healthy, engaged and active

workforce.

LiveWell Greenville is on a mission to make the healthy choice the easy choice.

LWG and Furman University Partnership Facts:

- Created an innovative shared position where LiveWell Greenville pays for partial salary of a Principal Investigator who provides assistance with data and evaluation to demonstrate effect and validity.
- Provided 50 internship opportunities for students, this number grows each year.
- Performed three foundational studies:
 - Greenville County Youth Body Mass Index Study
 - Park Audit Study: Examining Disparities In Park Availability, Features, and Quality across Greenville County
 - Food Environment Study: Exploring the Association between Food Stores and Demographics in a Southeastern County
